

# PATEL'S REGISTER - COMPLETE OPERATOR'S MANUAL

Welcome to **Patel's Register**, your professional offline business manager for Staff Attendance, Personal Loan Ledgers, and Automated Salary Payroll processing.

---

## SECTION 1: INITIAL APP SETUP & PREFERENCES

When you open the app for the first time, take 1 minute to configure your company profile and lock security.

### 1. Set Your Company Name

- Go to the **Settings** tab.
- Tap **Company/Business Name**.
- Enter your company name (e.g., Patel Enterprises, Shreeji Electronics). This name will print at the top of all PDF reports and salary slips!

### 2. Configure App Lock PIN & Fingerprint Security

Keep your financial records and employee salaries safe from unauthorized eyes.

- In **Settings**, toggle on **App Lock Security**.
  - Choose a memorable **4-Digit PIN**.
  - **Security Question**: Choose a question and enter a secret answer. Write this down! If you ever forget your PIN, you can reset the lock instantly with this answer.
  - **Biometrics (Face/Fingerprint)**: Toggle on **Biometric Authentication** to unlock the app instantly without entering the PIN.
- 

## SECTION 2: STAFF & EMPLOYEE MANAGEMENT

Before marking attendance, you must register your staff members.

### 1. Registering a New Employee

- Go to the **Staff** tab and tap **Add Employee** (Floating blue button).
- **Fill out Details**:
  - **Full Name** (Required)
  - **Phone Number** (Required - used for WhatsApp/SMS slips)
  - **Designation / Role** (e.g., Supervisor, Driver, Labor)
  - **Base Monthly Salary** (Required - used to auto-calculate daily wages)
  - **Custom Overtime (OT) Rate** (Optional - if left blank, the app auto-calculates standard OT at 1.5 times the normal hourly rate).

- **Joining Date & Address** (Optional)
- **Personal Notes** (e.g., emergency contact, key responsibilities)

## 2. Add Employee Photos

- Tap on the **Employee Avatar (Profile Picture Icon)** inside the form.
- Choose **Camera** to capture a fresh photo, or **Gallery** to upload an existing one. All photos are saved securely on your device!

## SECTION 3: DAILY ATTENDANCE REGISTER

The daily register keeps track of who worked, missed, or took leaves.

### 1. Navigating Dates

- Open the **Register** tab.
- At the top, swipe the horizontal calendar left or right to switch days. Tap any date to register attendance for that day.
- Tap the **Calendar Icon** on the top right to jump directly to any month or year.

### 2. Marking Attendance

For each staff member, select their daily status:

- **Present:** Normal full working day.
- **Half-Day:** Calculated as 0.5 of a working day.
- **Absent:** Zero salary earned for the day.
- **Paid Leave:** Counts as a present day (fully paid) without the employee working.
- **Overtime:** Mark work shift plus extra hours.
  - How to record OT: Tap **Add OT Hours** next to the employee name, enter the number of hours they worked overtime, and tap Save.

### 3. Quick Action: "Mark All Present"

- In a hurry? Tap the **Mark All Present** button at the top of the list to instantly mark all unmarked employees as Present in one click! You can still manually change individuals afterward.

## SECTION 4: LOAN, ADVANCES & EMI LEDGER

The app features a built-in loan management ledger to track advances given to employees and their repayments.

### 1. Giving a Loan or Advance

- Go to the **Loans** tab.
- Tap **Give Loan / Adv.**

- Select the **Employee, Date, and Amount**.
- **Monthly EMI (Repayment Plan)**: If you want to deduct a fixed amount every month from their salary, enter the **EMI / Repayment per month** (e.g., ₹2,000).
- Add notes for reference (e.g., for school fees).

## 2. Recording a Repayment Manually

- If an employee hands you physical cash to repay their loan, tap **Record Repay**.
- Enter the employee, date, amount, and save. The system will instantly deduct this from their active loan balance.

# SECTION 5: AUTOMATED SALARY PAYROLL & SHARING

The app automatically calculates monthly wages, overtime payouts, and outstanding loan deductions.

## 1. How Salary is Calculated

The app uses a scientific payroll formula:

- **Daily Rate** =  $\text{Monthly Base Salary} / \text{Days in Month}$  (Or divided by 26 days if configured in settings).
- **Earned Base Salary** =  $(\text{Present Days} + \text{Paid Leaves} + \text{Half Days} \times 0.5) \times \text{Daily Rate}$ .
- **Overtime Payout** =  $\text{Overtime Hours} \times (\text{Hourly Rate} \times 1.5)$  (or your custom employee OT rate).
- **Net Payable Salary** =  $\text{Earned Salary} + \text{Overtime Pay} + \text{Bonuses} - \text{Loan EMIs} - \text{Other Deductions}$ .

## 2. Committing Monthly EMIs

- Open the **Staff** tab and select an employee.
- Go to the **Payroll & Salary** tab.
- Under the salary breakdown, you will see their **Suggested Monthly EMI**.
- Tap the **Commit Monthly EMI** button to securely deduct this month's installment and update their outstanding loan balance in the database.

## 3. Sending Salary Slips (Three Delivery Channels)

Tap the **Message Icon** on any employee card or statement screen to choose how to transmit their report:

1. **WhatsApp**: Sends a direct, professionally formatted chat statement to the employee's WhatsApp.
2. **SMS / Messenger**: Automatically composes and structures a standard cell phone text message.

3. **Other Share App:** Share via Telegram, Slack, Email, or copy the entire statement to your clipboard.
- 

## SECTION 6: MONTHLY PDF REPORTS

Generate beautiful, printable business books to analyze payouts.

### 1. Downloading Monthly Payroll Reports

- Go to the **Reports** tab.
  - Use the date navigation at the top to select the desired month.
  - You will see an instant, high-level financial summary of your company's total expenses (Earned salaries, Overtime payouts, Loans issued, and Net payable).
  - Tap **Generate PDF Report**.
  - **View & Share:** The app compiles a premium, tabular PDF ledger sheet. You can save this to your phone, print it, or share it via email/WhatsApp with business partners!
- 

## SECTION 7: OFFLINE BACKUP & SYSTEM RESTORE

Since Patel's Register is **100% offline and secure**, your data never goes to external servers. It stays on your phone. To protect your records when changing phones:

### 1. Create a Backup

- Go to **Settings** and scroll to the backup card.
- Tap **Export Backup**.
- The system generates an encrypted backup code of your entire register. You can copy this code, save it in your personal notepad, email it to yourself, or share the backup file securely.

### 2. Restore Your Register

- If you buy a new phone, download Patel's Register.
- Go to **Settings** -> **Import Backup**.
- Paste your saved backup code or upload your backup file.
- Tap **Restore** to instantly load your complete history of employees, registers, loans, and past salary slips!
